MEDICINAL

SIMPLE IN CONSTRUCTION, PERMANENT IN DURATION, EASILY APPLIED, ITS SKILL-FUL USE QUICKLY LEARNED.

The Electropoise is an Instrument for the

CURE OF DISEASE WITHOUT MEDICINE.

BASED on new theories of the cause and cure of disease, it deals with the electrical and magnetic conditions of the body and the gases surrounding it in the atmosphere, controlling these conditions at will. It is not electricity. DINEASE is simply impaired vitality. The Electropoise constantly adds to the vitality and only assists nature, in nature's way, to throw off the trouble.

A 40-page book, describing treatment and containing testimonials from all sections, and for the cure of all diseases, mailed freez on application. Address

advertisements. Entered at the Pestoffice, Alexandria, Virginia, as second-class matter.

Cockran on O'Ferrall.

Mr Cockren in his speech in the House in favor of the democrat in the recent'y contested election case in that body said:

"I would not for any number of a a's surrender the advantage we erjoy in contrast with your [turning to the republican side] conduct in marching down into districts and overturning majorities of 7 000 or 8,000; rushing cases to a conclusion without argument on the floor of this House; trampling on character; at empling even to put an imputs ion of blood upon the hand of as honest, upright, gentle, pure a man as ever sat within the balls of this representative body.

Loud applause on the democratic side] Now, when the people of the United States have risen and reduced you to a shattered, shivering remeant outside the breastworks by reasons of that record, it is amszing and dishearting to find that a gentieman from the great Etate of Virginia should think proper to place himself at your head and feel that the leadership of such a troop is a captaincy of which he might be proud, and that he should appeal for support to the democratice side upon the claim that corruption and bribery are equally upright in the eyes of the law with bonesty and patriotism. | Loud applause on the democratic side.

Mr. Speaker, we on this side who speak in defense of Mr. | Rockwell's title to his seat speak for it not because he is a democrat. We speak for it not because he is opposed by the party which has a!ways trained itt guns open honesty in political methods; we speak for it because he was elected by the voice of the unpur-chaed electorate of his district; we speak for it because upon the report of the majority itself the evidence is overwhelmingly in his favor. And when they seek to impair bis right it is by incloustion and not by evi-dence; it is by statement and not by proof; it is by a charge smuggled into this record and never established by testimony in the committe.

I say now to the gentleman from Virginia and to this House, it is not for a democrat that I plead; it is for the rights of the people of the United States; it is for the purity of the ballot box, not for any one person who claims here the ben fit of the votes that were contained in it. I speak for the cano tity of the altar of sovereignty itself, and I say that the seat secured to Mr. Rockwell by a majority of the uppurchased votes of his district is sacred in the eyes of the law, is protected by every lettr of our constituet impulse of our nature. And I say to the gent eman from Virginia that when the vote of this House shall be counted on this question the majority of his followers will be found amongst those who have not hesitated to steal character, or to try to steal it, when among those who leveled the power of the law, or sought to level it, against the feadom of elections in his own State; and that if a man is to be judged by the character of the company he keeps, the gentleman from Virginia will need to ask the indulgence of the mejority of his associates on the democratic side of the House.

Avenged Her Wounded Lover.

One of the most sensational killings ever known in the vicinity of El Reno, O. T., is reported from the western border of the Territory. A young man named Henry Harvey has been paying attention to a young woman in that neighborhood named Mary Wilson. Another man in the same vicinity also wished to pay his respects to the young woman, and the result was that a fend was at once inaugurated. Harvey was the fa-vered suitor, but the other lover, John Tobio, was well known as a desperate character, and a fight was the inevitable result of the complication. Harvey was with Miss Wilson at a dance, and during the festivities a quarrel was started between the two men which resu ted in Harvey getting a ball through his right lung, which inflicted a serious but not fatal wound. Miss Wilson was with him when the shot was fired, and as soon as he fe'l to the ground she drew from his pocket his revolver and fired point blank at Tobin, shooting him directly through the forehead, killing him instantly. She at once went to nursing Havey, and to better do it she called for a minister and was married to the wounded man. It is probable that the young woman will never be brought to court for her crime, and if she is there can never be a jury secured that

FOUGHT FOR HER DOG .- One of the best-knows lawyers in Reading, Pa., was unmercifully beaten with an umbrella on Saturday by a Mrs. Knecht The lawyer was passing the Reading Fire Insur-The lawyer was passing the Reading Fire Insurance Company's building with his handsome dog,
when a commoner canine belonging to the woman
ran out on the street and began to be friendly
with the lawyer's pet. The attorney walloped
Mrs. Knecht's dog over the head with his cane
and it ran yelping home. This brought its mistress out with a heavy umbrells, and she rushed
up behird the lawyer, whacking him over the
head with it. The blows were rained fast and
farious upon the head of her dog's assallant, and
he only escaped by rushing into an office hallway,
leaving his hat in the street.
